

Learning Challenge

Year 3

Who first lived in Britain?

History

We will be looking at how we can find out about the past and the work of an archaeologist.

Then we look in more detail about The Stone Age. We will investigate how the early Britons lived and their daily lives.

English

We will use our skills in writing instructions to create a recipe for a meal that an early Briton would have eaten.

As part of our work on writing stories, we will create an adventure story involving the early Britons.

We will create an information text about a Stone Age animal.

Computing

We will use the internet to research images and facts and then we will create an e-book about the Stone Age.

Art and Design

We will be painting 'Cave Paintings' and making models of the homes and the tools that early Britons would have used.

Maths and Science

We will be ordering historical events on a timeline. In Science, we will look at how the early Britons developed and what sort of diet they may have eaten. We will also be looking at the skeletons of Stone Age animals.

Autumn Term 1 2018

National Curriculum Key Skills

- Communication
- Computing
- Working with others
- Improving own learning/performance
- Problem-solving

Thinking Skills

- Information-processing skills
- Reasoning
- Creative thinking
- Evaluation

Questioning Skills

- Knowledge
- Comprehension
- Application
- Synthesis
- Evaluation
